Lecture 24
Quiz
1) The Laplace transform is a function of the ______ frequency variable $s$.
   a) real                           b) complex

2) The Laplace transform is __________.
   a) linear                        b) non-linear
1) The Laplace transform is a function of the ______ frequency variable $s$.
   a) real               b) complex

2) The Laplace transform is __________.
   a) linear             b) non-linear
