Lecture 34
Quiz
1) A Fourier Series allows us to express any periodic function as a sum of _______ functions.
   a) polynomial  b) trigonometric

2) A periodic function has a fundamental frequency of 1000 Hz. The second harmonic is at a frequency of _______ Hz.
   a) 500  b) 2000
1) A Fourier Series allows us to express any periodic function as a sum of _______ functions.
   a) polynomial  b) trigonometric

2) A periodic function has a fundamental frequency of 1000 Hz. The second harmonic is at a frequency of __________ Hz.
   a) 500  b) 2000
