Lecture 20
Quiz
1) A phase-locked loop (PLL) can track changes in frequency but not changes in phase.

(a) TRUE  (b) FALSE

2) DSB can be demodulated without requiring carrier insertion.

(a) TRUE  (b) FALSE
1) A phase-locked loop (PLL) can track changes in frequency but not changes in phase.

(a) TRUE  (b) FALSE

2) DSB can be demodulated without requiring carrier insertion.

(a) TRUE  (b) FALSE
