Lecture 28
Quiz
1) In a superheterodyne receiver, adjacent channel suppression is performed by the ______ amplifier.

(a) RF  (b) IF

2) In a superheterodyne receiver, image suppression is performed by the ______ amplifier.

(a) RF  (b) IF
1) In a superheterodyne receiver, adjacent channel suppression is performed by the ______ amplifier.

(a) RF  (b) IF

2) In a superheterodyne receiver, image suppression is performed by the ______ amplifier.

(a) RF  (b) IF
