Lecture 11
Quiz
1) Excessive quantization error occurs in delta modulation if the step size is too _______.

(a) small  
(b) large

2) The ___________ is varied in adaptive delta modulation.

(a) step size  
(b) sample rate
1) Excessive quantization error occurs in delta modulation if the step size is too ______.

   (a) small                           (b) large

2) The ____________ is varied in adaptive delta modulation.

   (a) step size                       (b) sample rate
