1) Recovery of the transmission clock signal is known as _______ synchronization.

(a) bit
(b) frame

2) A good correlation sequence (frame preamble) should have ______ autocorrelation values for all non-zero shifts of the sequence.

(a) low
(b) high
EE470 Analog Comm.

1) Recovery of the transmission clock signal is known as _______ synchronization.
   (a) bit  (b) frame

2) A good correlation sequence (frame preamble) should have ______ autocorrelation values for all non-zero shifts of the sequence.
   (a) low  (b) high
