EE343 Electronics II

Lecture 5
Quiz
1) In cutoff a MOSFET acts like a/an _______ switch between the drain and source terminals.
   a) closed          b) open

2) In saturation, the drain current is proportional to _______ ( $v_{ov} = v_{GS} - V_t$ ).
   a) $v_{ov}$        b) $v_{ov}^2$
EE343 Quiz

1) In cutoff a MOSFET acts like a/an ________ switch between the drain and source terminals.
   a) closed    b) open

2) In saturation, the drain current is proportional to ________ ( \( v_{ov} = v_{GS} - V_t \) ).
   a) \( v_{ov} \)    b) \( v_{ov}^2 \)
